POLITICAL EFFECT IN BANKING WORLD

Financial Circles Locally and in The East Feel Unsettled Condition.

THE MARKETS AT A HALT

pry Goods, Hardware and Other Lines Stand Waiting for Opening of Business of Colder Season.

According to local banking comment, he nnancial situation, which was on way to a healthy success last week, received a set back, due to the awhat unsettled state of the pocal world. The New York stock hange has not before exhibited that lting uncertainty which is now obning there. The bank clearings con-ing there. The bank clearings con-ied, until Friday, to show up behind corresponding dates of 1909. But the date mentioned, there was a re-sal which the clearing house people cerely trust will be continued.

HENRY CLEWS' CIRCULAR, Henry Clews says in his weekly cir-

crop outlook is better than a ago. Corn has been making progress during the past week, he outlook for a 3,000,000,000 bushe, is fairly reasonable, if damage starty reasonable, if damages at be escaped. Cotton is also yell and should, if free from frost, at larger than at one time an-id. It will be remembered that has already disappointed the stic predictions of July. There efore, now little or no danger fallures, and the country is al-intain of securing a fairly satis-harvest. Although prices are harvest. Although prices are ily lower than a year ago, they d good profits to farmers. This explains the continued optimwhich come from the west, y sympathize with the pessimich has spread all through the further west one goes the stimistic is the temper.

has been a noticeable improve-

the banking situation at the resulting from the precautions by bankers for the last month weed by bankers for the last month x weeks. Liquidation has not only ked unhealthy speculation in the lor, but has forced a freer mar-g of crops which had been held for higher prices. This was ingry demonstrated by the recent increase in grain receipts at pri-points compared with a year ago, demand for money to move the at the west and south has already a, and henceforth the surplus reand henceforth the surplus re-of the New York banks may be ed to decline as western institu iraw upon their balances in this t. Considering the lessened de-for money for business and spec-purposes, the New York banks e able to assume their share of op burden with much less diffi-than at one time feared. Firmer rates are within probabilities, dications do not point to any ex-stringency either at New York

money centers. The hardware trade reports that ugust had closed with a gratifying nowing, the volume of sales having exded those of August, 1909. Orders reported as being received quite eiy, a good, steady, substantial trade stained with the country dis rather than with city sources, times are rather dull. The de-is for sheet iron, metal goods for nstruction, fencing, granite and washing machines, stoves, etc. are, washing machines, stoves, etc. ncreased trade is anticipated withne next 30 days. Collections are due largely, it is claimed, to inaof country purchasers to borrow local banks money with which to int their bills. However, it is remoney with more freedom.

LUMBER.

lumber trade appears to be in commercial coma, with of commercial coma, with snip-slow, and cars hard to get. There hange in prices; has not been for weeks, and there is no telling there will be any change. The may be said of the cement mar-that the factories are actually ng to accumulate stock.

WHOLESALE DRY GOODS. colesale dry goods trade locally anditions very dull, practicaling doing preparatory to opening two operations for the fall and trade. Jobbers report the gen-tile as broadening out, with both fabrics and yarns firmer, and oney rates tending to retard new The miscellaneous trade is

The Descret News Book Store

are quoted fliere is little response from buyers. Print cloths are moving well. Wide sheetings are firmer, and on blankets, napped cottons, etc., the sell-ing has been steadler. There is more inquiry for the finer lines of ginghams for fall and spring delivery, also a bet-ter call for fine madras weaves for shirtings and dress purposes, particularly in the new styles of silks and col tens—such as madras grounds and Jac-quard slik figures. Fine glagham zephyrs are also in better demand. Fine and fancy cottons are being bought by wholesalers to supplement early pur-chases, while printed voiles and printed marquisets are being ordered steadily. Some large department stores are plac-ing orders on these cloths very freely for January delivery.

The knit goods market is quiet, mak-ers of supranteed standard lines hav-

The knit goods market is quiet, makers of guaranteed standard lines having the best trade. Buyers have become critical of qualities in hosiery and underwear, canceling deliveries taxiare not satisfactory in quality. Silks are becoming more active, after a long season of quiet, with continued broadening in the demand. Prices are irregular, but the grapral outlook is wood. lar, but the general outlook is good. Jobbers report that retail buyers and manufacturers of ready-to-wear garments are in the market more frequent. ly, and are placing better orders. Silk volles, crepes and other open weaves have also been in steady request. Satins are coming to the front, bidding fair to be in evidence the coming season. For petticoats and underskirts taffetas in quiet plaids, stripes and checks are being taken, while many French novelties are being introduced, including velvets. The outlook for spring is considered unusually bright.

RETAIL DRY GOODS TRADE. The retail dry goods trade reports business picking up with a growing call for fall goods. The department stores are in receipt of large chipments of shoes, the styles being the same as last year. The display windows are hundsomely gotten up with attractive costumes attracting pretty generally the feminine attention. In millinery the big hat is relegated to special social functions, the prevailing style of women's tions, the prevailing style of women's headgear having shifted from the eart wheel hat to the tall, closely fitting turban. There is a large line of suits being received, though in some branches the strike of the garment makers is reducing the receipts here by curtailing the output in the east.

BUSINESS NOTES

Brokers report another week of semi-stagnation, such deals as there were having been small. The continued close having been small. The continued close money market has a depressing influence on most securities, as many people who need money and are unable to obtain it at the banks, sacrifice their stocks—to tide over their needs. The banks report continued receipts of lamb and sheep money, which are expected to improve conditions. The main transactions of the week were those of Utah-Idaho Sugar company, Consolidated Wagon and Home Fire, at the prices named below. The following are the latest quotations: Amalgamated Sugar, pfd...... Amalgamated Sugar Co., com... Con, Wagon & Machine Co..... Continental Life Insurance

DINWOODEY'S

DIRECTOR OF BUREAU OF MINES

Prest. Taft Appoints Joseph Austin Holmes of the Geological Survey.

REASON FOR THE LONG DELAY

At Beverly It Is Understood That Secy. Ballinger Was Opposed to Him.

Beverly, Mass., Sept. 2 .- President Taft tonight announced the appointment of Joseph Austin Holmes of the geological survey as director of the new bureau of mines at Washington.

Dr. Holmes had been selected for the place some time ago but his appointent was held up, it is understood here, on the ground that Secy. Ballinger under whose department the new bureau is placed, was opposed to him. Mr. Holmes is the intimate personal friend of Gifford Pinchot, James R. Garfield and F. H. Newell, director of the reclamation service, all three of whom sharply criticized Mr. Ballinger on the witness stand of the Ballinger-Pinchot inculry.

on the witness stand of the Ballinger on the witness stand of the Ballinger-Pinchot inquiry.

It was reported here that Secy. Ballinger felt Dr. Holmes might have had a hand in what he termed the "conspiracy" against him. Friends of Dr. Holmes, while admitting the latter's close association and friendship with Messrs. Pinchot, Garfield and Newell, declared nevertheless that he had taken no active part in the campaign against Mr. Ballinger.

The indersement of Dr. Holmes for the place was almost unanimous. It came from the mine operators and the miners' organizations alike. The purpose of the new bureau is to investigate and report upon safety appliances to prevent the awful waste of life annually.

The bureau will also make an investigation looking to the improvement of

gation looking to the improvement of methods in mining.

CIVIL SERVICE EXTENSION TALK. President Taft is contemplating and probably will issue soon after his return to Washington from Beverly an executive order putting all assistant postmasters and the permanent clerks at money order postoffices under the civil service.

at money order postoffices under the civil service.

Postmaster General Hitchcock recommended this step to the president some time ago, and he has been considering it. Today the president talked the matter over with R. H. Dana, president of the National Civil Reform league. Mr. Taft will take the question up with his cabinet the latter part of this month and finally dispose of it. Mr. Hitchcock thinks the order will mark a great improvement in the postal service.

President Taft has a long list of matters to take up with his cabinet advisers. He will reach Washington Sept. 21 for a 10 days' stay, and the cabinet will be in practically continuous session Sept. 25, 27 and 28.

President Taft will take up with his cabinet in Washington the final plans for putting the postal savings banks in operation. He will discuss the estimates for the coming year with the heads of the various departments and try to hold them down wherever possible. The economy plans for coonducting the various departments and the best means of using the \$100,000 appropriation for the improvement of business methods also will be discussed.

NO SPEECHES. There is little or no chance that President Taft will make any speeches during the coming campaign. He has declared that his letter to Chairman McKinley of the Republican congressional committee accurately satures all that he has to say of the issues.

The president will speak before the National League of Republican Clubs of New York along general lines.

Foster P. Brown of Tennessee, attorney general of Porto Rico, took up several matters affecting that island

torney general of Forto Rice, took up several matters affecting that island with the president. He also discussed the political situation in Tennessee. Tomorrow afternoon the president starts from Boston to St. Paul where he is to deliver an address at the na-tional conservation congress Monday

GOVERNOR HAY ON ACTUAL CONSERVATION

Declares People of Washington State Were Practising It Before Pinchot Or Roosevelt Appeared.

Spokane, Wash., Sept. 2 .- 'The peoole of the state of Washington were xercising practical conservation before Gifford Pinchot and Theodore Roosevelt appeared on the political horizon," lared Gov. M. E. Hay, in discussing his plan of state conservation, which he will advocate at the conservation congress in St. Paul next week.

"I am sorry to have to take issue with the former president on the question of conservation, but I am for state conservation first and last. Twenty-seven and a quarter per cent of the area of the state of Washington, an area larger than the states of Rhode Island. Connecticut, Delaware, New Jersey and the District of Columbia combined, is taken up with federal reserves, and the taxpayers of the state of Washington are taxed no small sum each year to police and fire patrol this territory. his plan of state conservation, which

Five hundred thousand acres given to us by the federal government for educational purposes are within this forest area to which the federal governforest area, to which the rederal govern-ment refuses to allow us to secure title.
"I am as strong a conservationist as a man can be. I am absolutely and firmly of the opinion that the peo-ple of this state are more competent to administer the reserves of Washing-ton than any bureau in Washington, D. C."

RAILROAD RATE HEARING.

Commissioner Prouty Says Commission Approaches it With Open Mind. Chicago, Sept. 3.—Interstate Commissioner C. A. Prouty, who attended the railread rate hearing here yesterday said the commission was approaching the rate investigation with an open mind.

"There is absolutely no suspicion in my mind," he declared, "or, as far as
